Light Poles

The installation of our new black light poles was the result of an inquiry to the county concerning the one black pole on Fairwood Drive. The county was under the impression that black poles had been installed when the lights were replaced the previous year. When told that had not happened the new poles were installed. Unfortunately it happened over the holiday season so we could not decorate them this year. The Community Association is not in charge of the street lights. If there is a problem with a light near your house please call BG&E at 1-800-685-0123 for repairs. You may also reach them at bg&e.com. and scroll down to street lights.
